EXPERIENCE

- **DX FutureTech** Bengaluru, Bengaluru
React Native Developer June 2024 - Present
 - Developing a React Native mobile app for a UK-based property management company, streamlining processes for letting, selling, renting, and buying properties in central UK, contributing to the digital transformation of previously manual operations.
 - Implemented features like animations, notifications, secure credentials, payment gateway, and in-app purchases with robust API encryption.
 - Implemented robust security measures including API encryption and secure credential management, while ensuring responsive design across diverse device aspect ratios.
 - Enhanced property management efficiency through features like smooth animations, push notifications, and seamless transactions, optimized for both iOS and Android platforms.
- **LTIMindtree** Hyderabad, Telangana
Senior Software Engineer - React Native Oct 2020 - June 2024
 - Led cross-platform mobile app development, integrating chatbot, payments, and inventory features, while managing a small team and DevOps.
 - Architected app with Redux Saga/Thunk, integrated third-party APIs, secured data with JWT/Auth0, and enabled offline database support.
 - Streamlined CI/CD workflows with CircleCI and GitHub Actions, integrated testing, and enhanced 2D graphics using React Native Skia and Reanimated 3.
- **Protron Technologies** Hyderabad, Telangana
Mobile Application Developer June 2020 - Nov 2020
 - **Feazy - Contactless Dining:** Developed a cross-platform mobile application using React-Native with a payment gateway, allowing customers to order food from a food court within minutes and reduce waiting time considerably.
 - **Technology Stack:** React-Native, Firebase (PostGIS), QRcode-Scanner
- **AONE Apps** Hyderabad, Telangana
Mobile Application Developer June 2019 - Oct 2019
 - **AONE : Nextgen Ridesharing:** Developed a comparable iOS app for an Android app already in use with the intention to shift the technological stack from platform-native codebase to one with a singular codebase.
 - **Technology Stack:** React-Native, Firebase, MapBox, Google Maps

EDUCATION

- **Chaitanya Bharathi Institute Of Technology** Hyderabad, TS
Bachelor of Technology in Information Technology; 2016 - 2020
- **Navy Children School** Port Blair, A&N
Intermediate; 2013 - 2015

PROJECTS

- **Pratibha** : Developed an app for Kiran Foundation (a NGO), connecting students from disadvantaged backgrounds with mentors to enhance their education and opportunities.
- **Adverse Road Condition Map:** Map based application to alert the user regarding potholes and speed bumps. The data is collected by the users itself.(Smart India Hackathon 2019 Problem statement, given by ARAI)
- **Spam detection and sentiment analysis:** Application based on Machine Learning using python to detect spam set of texts and further perform sentiment analysis. Tested on the Twitter data set.

ACHIEVEMENTS

- **1st position:** Smart India Hackathon 2019 Winner for complex problem statement.
- **Spotlight award 2022:** Received the Spotlight Award for consistently and punctually delivering critical use cases.

PROGRAMMING SKILLS

- **Technologies** React-Native, Android, React-js, Node.js, Redux, GIT, Firebase, RPA, Power Platform, ServiceNow.
- **Languages:** JavaScript (4 Years), HTML, CSS, Python, SQL, Bash, Flex, ES6
