

EXPERIENCE

- **DX FutureTech** Bengaluru, Karnataka
React Native Developer June 2024 - Present
 - Developed a B2C app for UK property management and a B2B solution for UAE, optimizing real estate workflows for buying, renting, and selling.
 - Architected modular, scalable applications with reusable components and long-term maintainability.
 - Implemented biometric and guest login features to enhance user onboarding and access flexibility.
 - Added offline compatibility using WatermelonDB, ensuring uninterrupted app functionality in low-connectivity environments.
 - Led inventory management across B2B and B2C apps by implementing efficient search and sort functionalities.
 - Implemented advanced integrations including YouTube embedding, in-app PDF export, and Google Maps with Directions API for enhanced content delivery and navigation.
 - Integrated payment systems to deliver seamless and unified experiences on iOS and Android.
 - Enhanced app security with secure credentials and role-based access control.
 - Led development of complex UX features such as animations, push notifications, and in-app purchases, while integrating native modules to enable advanced platform-specific functionality.
 - Contributed to mobile performance optimization by profiling, debugging, and reducing render lag and memory usage across critical user flows.
- **LTIMindtree** Hyderabad, Telangana
Senior Software Engineer - React Native Oct 2020 - June 2024
 - Led cross-platform app development, integrating chatbots, payment systems, and inventory features.
 - Designed app architecture with Redux Saga/Thunk and enabled offline database support using WatermelonDB.
 - Integrated RESTful and GraphQL APIs, ensuring robust backend communication.
 - Streamlined CI/CD with CircleCI and GitHub Actions, optimizing DevOps processes.
 - Enhanced performance with React Native Skia and Reanimated for rich graphics.
 - Collaborated closely with cross-functional teams and mentored junior developers during sprint planning and code reviews.
- **Freelance Mobile Application Developer** Hyderabad, Telangana
Mobile Application Developer June 2019 - Aug 2020
 - **Feazy (Protron Technologies)**: Built a contactless dining app with QR code scanning and integrated payments.
 - **Technology Stack**: React-Native, Firebase (PostGIS), QRcode-Scanner
 - **Ridesharing App (AONE Apps)**: Developed a cross-platform ridesharing app with real-time mapping and location tracking.
 - **Technology Stack**: React Native, Firebase, MapBox, Google Maps
 - Deployed mobile applications to both the Google Play Store and Apple App Store, ensuring production readiness and post-release support.

PROGRAMMING SKILLS

- **Technologies** React-Native, Android, React-js, Node.js, Redux, GIT, Firebase, Whiteboarding, Native Modules, RPA, Power Platform
- **Languages**: JavaScript, TypeScript, HTML, CSS, Python, SQL, Bash, Flex, ES6

PROJECTS

- **Pratibha** : Developed an app connecting underprivileged students with mentors.
- **Adverse Road Condition Map**: Map-based app for road hazard alerts, recognized as Smart India Hackathon 2019 Winner.

ACHIEVEMENTS

- **1st position:** Smart India Hackathon 2019 Winner for complex problem statement.
- **Spotlight award 2022:** Received the Spotlight Award for consistently and punctually delivering critical use cases.
