Dear Recruiter,

I am excited to express my keen interest in the Python Developer – Quants Dev position at HSBC. In my current role as a Senior Software Engineer at LTIMindtree, I have developed a strong foundation in Python automation, Power Automate, and software engineering. While my experience may differ from the traditional financial domain, my problem-solving skills and commitment to innovation make me a valuable candidate for this role.

At LTIMindtree, I have demonstrated my ability to deliver efficient solutions through Python automation. My problem-solving skills have been an asset, driving successful outcomes even in unfamiliar contexts. Furthermore, my experience as part of an R&D team underscores my adaptability and eagerness to explore new technologies and possibilities.

Although I haven't directly worked on financial tools, my disciplined approach to software development, dedication to continuous improvement, and proficiency in collaborating across teams align well with the role's requirements.

I am enthusiastic about the prospect of contributing my problem-solving abilities and strong work ethic to HSBC's esteemed team. Thank you for considering my application. I am eager to discuss how my skills and passion for innovation align with your team's goals.

Warm regards,
Divyanshu Alok
